

13 ROW INCLINED PLATE MULTI-CROP SEED CUM FERTILIZER PLANTER - TRACTOR DRAWN

Features

- Saves considerable seed, time, and labour
- Rigid heavy-duty frame gives long life
- Adjustable tynes
- High quality powder coated colour
- Low maintenance
- Precise distance between seeds
- Suitable for multi – crop planting of soybean, soybean+pigeon pea intercrop, green gram, black gram, sorghum, millets, Onion, chick pea, *dollar chana*, maize, groundnut etc. crops

Technical specifications

SN	Particulars	Details
1.	Number of tynes	: 13 No.
2.	Power source	: 45 hp & above
3.	Overall Dimensions (L x W x H)	: L1450 x W2890 x H1060 mm
4.	Weight	: 450 kg (Approx.)
5.	Seed metering system	: Inclined plate seed metering
6.	Fertilizer metering	: Vertical rotor fertilizer metering
7.	Tyne to tyne spacing	: 200 mm Adjustable
8.	Seed capacity	: 35-40 kg
9.	Fertilizer Capacity	: 50-60 kg
10.	Drive system	Chain & sprocket
11.	Field capacity	: 3.5 – 4.5 ha/day
12.	Suitable travelling speed of tractor	: 3.0-3.5 km/h
13.	Cost of machine, Rs.	: 110,000
